PROFESSIONAL EXPERIENCE

Graphic Design & Web Publishing Manager

2026 – Present

Brookings Metro, Washington D.C.

- Lead visual and digital production for Brookings Metro, translating economic and public policy research into data visualizations, infographics, interactive concepts and publication designs.
- Own the web publishing process for Brookings Metro, preparing and publishing articles, reports and newsletters while managing visual assets, embeds, responsive presentation and final publication QA.
- Design and produce long-form policy reports, including publications spanning 60–80 pages, and have produced or supported 30+ data visualizations across Datawrapper, Flourish, Illustrator and custom web formats.
- Introduced an ai2html workflow for responsive custom graphics, creating reusable Illustrator templates and documentation to expand Brookings Metro's capacity for custom visual storytelling.

Graphics Reporter [↗](#)

2022 – 2026

The Washington Post, Washington D.C.

- Reported and built more than 30 congressional vote trackers and visual investigations covering Congress, elections, redistricting, federal spending and the courts, including live vote tracking from the House chamber during consequential legislative debates.
- Built and maintained databases and trackers covering Supreme Court decisions, judicial confirmations and House and Senate votes, analyzing margins, partisan defections and shifts in power.
- Developed reusable newsroom frameworks and automation pipelines using JavaScript, D3, React, HTML, CSS, ai2html and Google Apps Script to power and automate graphics across desks.
- Translated complex legislative text, roll-call records and electoral data into clear static and interactive visual systems, delivering publish-ready graphics under tight breaking-news deadlines.

News Aide

2017 – 2022

The Washington Post, Washington D.C.

- Supported newsroom production across graphics, photo, print and operations, working with reporters and editors during breaking news, elections, the pandemic and periods of civil unrest.
- Managed photo workflows, captions and metadata and designed next-day print pages across A section, Metro, Sports and Style under nightly production deadlines.

Editorial Intern

2017

The Kiplinger Letter, Washington D.C.

- Copy-edited and fact-checked a weekly economic forecasting publication covering fiscal and monetary policy, labor markets, inflation and federal policy.
- Analyzed BLS, BEA and Federal Reserve data in Excel to verify economic trends and support reporting and forecasts.
